## Professional Summary

- Frontend Developer with 2+ years of experience building responsive web applications using React.js, TypeScript, and modern CSS frameworks
- Proven track record of developing 5+ production-ready applications with API integration and deployment
- Strong understanding of UI/UX principles, RESTful APIs, and cross-browser compatibility
- Currently pursuing MSc in Information Technology with hands-on project experience

## Technical Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3
- **Frontend Development:** React.js, Next.js, Redux, Context API, GSAP, Three.js
- **Backend Integration:** REST APIs, Axios, Fetch API, GraphQL (Basic)
- **Styling:** Tailwind CSS, CSS Modules, SASS, Responsive Design, Mobile-First Approach
- **Tools & Platforms:** Git/GitHub, Vercel, npm/yarn, Webpack, Postman
- **Testing:** Jest, React Testing Library (Basic)

## Professional Experience

- **HOPn** **Jun 2025 – Present**  
*Frontend Development Intern (Remote)* *Berlin/Munich, Germany*
  - Developed reusable React components using TypeScript and Tailwind CSS, improving code maintainability by 30%
  - Implemented API integration with Axios, reducing data fetching errors by 25% through robust error handling
  - Collaborated in Agile team using Git version control, Jira, and weekly sprints to deliver features on schedule
  - Optimized application performance by implementing lazy loading and code splitting, reducing initial load time by 40%
- **Impact Software Solution** **Dec 2020 – Sep 2021**  
*Frontend Developer* *Peshawar, Pakistan*
  - Built 3+ React applications with responsive designs that adapted seamlessly across desktop and mobile devices
  - Integrated with Node.js backend APIs, implementing JWT authentication for secure data transmission
  - Conducted code reviews and mentored junior developers, improving team code quality by 20%

## Key Projects

- **Movie Finder App** **React.js, TypeScript, TMDb API**
  - Developed a responsive movie discovery application with real-time search functionality using debounce technique
  - Implemented trending movie carousel and detailed view pages with React Router
  - Live Demo — [GitHub Repository](#)
- **iPhone Interactive Website** **React.js, GSAP, Three.js**
  - Created immersive 3D product showcase with smooth animations and scroll-triggered effects
  - Optimized performance using WebGL and canvas rendering techniques
  - Live Demo
- **Chat Session Manager** **React.js, Context API**
  - Built a chat management dashboard with filtering, sorting, and session archiving functionality
  - Implemented state management using React Context API for efficient data flow
  - Live Demo
