## Professional Summary

---

Frontend Developer with 2+ years of experience building and maintaining production-ready web applications using React.js, TypeScript, and modern JavaScript. Strong background in API integration, Git-based workflows, and collaborative Agile environments. Experienced in creating clear technical documentation, README files, and internal developer guides to improve developer experience and onboarding. Highly motivated to grow in developer education, documentation, and API-focused roles.

## Technical Skills

---

**Programming Languages:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

**Frontend Development:** React.js, Next.js, Redux, Context API, GSAP, Three.js

**Backend & APIs:** REST APIs, Axios, Fetch API, Node.js, GraphQL (Basic)

**Documentation & DX:** README authoring, component documentation, API usage guides

**Tools & Platforms:** Git, GitHub, Vite, Jira, Postman, Vercel, npm/yarn, Webpack

**Testing:** Playwright, Jest, React Testing Library (Basic)

## Professional Experience

---

### HOPn

Jun 2025 – Present

*Frontend Development Intern (Remote) — Berlin / Munich, Germany*

- Developed reusable React components using Javascript and Tailwind CSS, improving code maintainability by 30%.
- Integrated REST APIs using Axios and documented API usage patterns to support other developers.
- Authored internal documentation and README files describing component usage, data flow, and setup steps.
- Collaborated with engineering and product teams using Git, merge requests, Jira, and Agile sprints.
- Improved application performance through lazy loading and code splitting, reducing initial load time by 40%.
- Integrated OAuth 2.0 authentication using a third-party identity provider and managed access tokens in the frontend.

### Impact Software Solution

Dec 2020 – Sep 2021

*Frontend Developer — Peshawar, Pakistan*

- Built 3+ React-based web applications with responsive, mobile-first designs.
- Integrated frontend applications with Node.js backend APIs and implemented JWT-based authentication.
- Wrote clear technical documentation and setup instructions to assist junior developers and new team members.
- Conducted code reviews, provided mentoring, and contributed to improving overall code quality by 20%.
- Collaborated closely with developers and stakeholders to refine requirements and deliver features on time.

## **Key Projects**

---

**Movie Finder App** — React.js, Playwright, Vite, JavaScript, TMDb API

Live Demo — GitHub Repository

- Developed a responsive movie discovery application with real-time search using debounce techniques.
- Integrated third-party REST APIs and documented API responses and error-handling strategies.
- Created a detailed README covering project setup, architecture, and usage instructions.

**iPhone Interactive Website** — React.js, GSAP, Three.js

Live Demo

- Built an immersive 3D product showcase with scroll-based animations and WebGL rendering.
- Documented performance optimization techniques and animation workflows for reuse in future projects.

**Chat Session Manager** — React.js, Context API

Live Demo

- Developed a chat management dashboard with filtering, sorting, and session archiving features.
- Implemented structured state management and documented component responsibilities and data flow.

## **Education**

---

**MSc in Information Technology and Management**

End Aug 2025

Berlin School of Business and Innovation, Berlin, Germany

## **Additional Information**

---

**Languages:** English (Fluent), German (A2 — Learning)

**Work Authorization:** Eligible to work in Germany

**Interests:** Developer Experience (DX), Technical Documentation, APIs, Developer Education

**Soft Skills:** Clear written communication, cross-team collaboration, problem-solving, adaptability, continuous learning
