

Saqib Ali

Frontend Engineer - React - AI-Tools

Berlin, Germany — +49 176 21216447 — saqibpak00@gmail.com — github.com/saqib0335 — LinkedIn
Eligible to work in Germany

Professional Summary

Frontend Engineer with Several years of experience building modern web applications using React and TypeScript. Experience in collaborating with product and design teams to translate complex user and business requirements into scalable, intuitive solutions with the help of AI. Skilled at transforming complex data and backend systems into clear, user-friendly interfaces. Strong analytical mindset with a focus on clean architecture, usability, and high-quality software.

Core Skills

Frontend	React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, SASS, HTML5/CSS3, Responsive Pages
State & Data	React Query, Redux, Context API, React Hook Form,(queries, mutations, subscriptions)
Backend	Node.js, REST APIs, Axios, Express.js, JWT Authentication
Database	SQL basics; learning PostgreSQL
Testing	Jest, React Testing Library, Integration Testing
Tooling	Git/GitHub, CI/CD, Vercel, Webpack, npm/yarn, Jira, Agile/Scrum
Bonus	Three.js, WebGL, Performance Optimisation,Claude,Data Structure

Work Experience

Frontend Developer - Projects and Professional Development

Jan 2026 - Present

Berlin

- Strengthened backend and full-stack capabilities by completing certifications in **Node.js** and **Express**, applying learned concepts to enhance existing projects and build scalable APIs.
- Improved and refactored legacy projects by applying modern best practices (component architecture, state management, testing), increasing overall code quality and scalability.
- Applied advanced **React debugging and testing techniques** (Jest, React Testing Library), improving reliability and reducing bugs in production.
- Solved advanced React challenges and implemented complex UI patterns, strengthening problem-solving and frontend architecture skills.
- Leveraged AI tools (Claude, Cursor) to generate and refactor React/JavaScript components, improving development speed

Frontend Development Intern

Jun 2025 – Dec 2025

HOPn, Berlin / Munich (Remote)

- Developed reusable React components using TypeScript and Tailwind CSS, improving maintainability.
- Implemented API integrations using Axios for reliable data fetching.
- Optimised performance via lazy loading and code splitting, improving initial load time.
- Collaborated with Product and Design teams in Agile sprints using Git and Jira.
- Wrote unit and integration tests using Jest and React Testing Library.

Frontend Developer

Dec 2020 – Sep 2021

Impact Software Solution, Peshawar, Pakistan

- Delivered 3+ React applications with responsive, mobile-first production deployments.
- Integrated frontends with Node.js backends and implemented JWT authentication
- Collaborated with backend engineers to design REST APIs and improve full-stack system functionality.

- Introduced SASS and CSS Modules for scalable, maintainable styling systems.

Selected Projects

Movie Finder App [Project Link](#)

React & TypeScript app consuming TMDb API. Features real-time search with debounce, trending carousel, detailed pages, fully responsive layout. Demonstrates product mindset and clean UX delivery.

iPhone Interactive Website [Project Link](#)

3D product showcase built with React, **GSAP**, and **Three.js**; optimised with WebGL/Canvas. Shows ability to create visually compelling, performant interfaces.

Chat Session Manager [Project Link](#)

Dashboard for chat session triage using React and Context API with filtering, sorting, and session management

Education

MSc Information Technology and Management

Berlin School of Business and Innovation, Berlin, Germany

from oct 2023 to Aug 2025

Certifications

- Modern Projects with React — LinkedIn Learning
- Express Essentials: Build Powerful Web Apps with Node.js — LinkedIn Learning
- Node.js Essential Training — LinkedIn Learning
- React: Advanced Code Challenges — LinkedIn Learning
- React: Testing and Debugging -Linkedin Learning

Additional Information

Languages	English (Fluent), German (A2 — actively learning)
Open Source	Active GitHub with multiple repositories including React applications and algorithm practice
Currently Exploring	PostgreSQL, Prisma ORM, and Node.js fundamentals
Platforms	Comfortable on macOS, Windows, and Linux
