

Saqib Ali

Frontend Engineer — React · TypeScript · Node.js

Berlin, Germany — +49 176 21216447 — saqibpak00@gmail.com — github.com/saqib0335 — LinkedIn
Eligible to work in Germany

Professional Summary

Frontend Engineer with Several years of experience building modern web applications using React and TypeScript. Experienced in collaborating with product and design teams to translate complex user and business requirements into scalable, intuitive UI solutions. Skilled at transforming complex data and backend systems into clear, user-friendly interfaces. Strong analytical mindset with a focus on clean architecture, usability, and high-quality software.

Core Skills

Frontend	React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, SASS, HTML5/CSS3, Responsive/Mobile-first
State & Data	React Query, Redux, Context API, React Hook Form, GraphQL (queries, mutations, subscriptions)
Backend	Node.js, REST APIs, Axios, Express.js, JWT Authentication
Database	SQL basics; learning PostgreSQL and Prisma ORM
Testing	Jest, React Testing Library, Integration Testing
Tooling	Git/GitHub, CI/CD, Vercel, Webpack, npm/yarn, Jira, Agile/Scrum
Bonus	Three.js, GSAP, WebGL, Performance Optimisation, Accessibility

Work Experience

Self Employed

Jan 2026 - Present

Berlin

- Strengthened backend and full-stack capabilities by completing certifications in **Node.js** and **Express**, applying learned concepts to enhance existing projects and build scalable APIs.
- Improved and refactored legacy projects by applying modern best practices (component architecture, state management, testing), increasing overall code quality and scalability.
- Implemented robust API integrations using Axios and Node.js services, reducing data-fetching errors by **25%**.
- Applied advanced **React debugging and testing techniques** (Jest, React Testing Library), improving reliability and reducing bugs in production.
- Solved advanced React challenges and implemented complex UI patterns, strengthening problem-solving and frontend architecture skills.

Frontend Development Intern

Jun 2025 – Dec 2025

HOPn, Berlin / Munich (Remote)

- Built and shipped reusable React + TypeScript components with Tailwind CSS, improving code maintainability by **30%** — directly aligned with the B2B SaaS feature-rich frontend work at Reonic.
- Implemented robust API integrations with Axios, reducing data-fetching errors by **25%**.
- Optimised performance via lazy-loading and code-splitting, cutting initial load time by **40%** — key for delivering world-class UX.
- Collaborated closely with Product and Design in Agile sprints (Git, Jira), contributing to CI/CD workflows.
- Wrote unit and integration tests using Jest and React Testing Library, maintaining high code quality.

Frontend Developer

Dec 2020 – Sep 2021

Impact Software Solution, Peshawar, Pakistan

- Delivered 3+ React applications with responsive, mobile-first production deployments.
- Integrated frontends with **Node.js backends**, implemented JWT authentication — experience directly relevant to Reonic's fullstack scope.

- Conducted code reviews and mentored junior developers, demonstrating ownership and accountability.
- Introduced SASS and CSS Modules for scalable, maintainable styling systems.

Selected Projects

Movie Finder App [Project Link](#)

React & TypeScript app consuming TMDb API. Features real-time search with debounce, trending carousel, detailed pages, fully responsive layout. Demonstrates product mindset and clean UX delivery.

iPhone Interactive Website [Project Link](#)

3D product showcase built with React, **GSAP**, and **Three.js**; optimised with WebGL/Canvas. Shows ability to create visually compelling, performant interfaces.

Chat Session Manager [Project Link](#)

B2B-style dashboard for chat session triage using React and Context API; includes filtering, sorting, and archiving. Mirrors the type of data-driven SaaS UI work relevant to Reonic's platform.

Education

MSc Information Technology and Management

Berlin School of Business and Innovation, Berlin, Germany

Aug 2025

Certifications

- Modern Projects with React — LinkedIn Learning
- Express Essentials: Build Powerful Web Apps with Node.js — LinkedIn Learning
- Node.js Essential Training — LinkedIn Learning
- React: Advanced Code Challenges — LinkedIn Learning

Additional Information

Languages	English (Fluent), German (A2 — actively learning)
Open Source	Active GitHub with multiple repositories including React applications and algorithm practice
Currently Exploring	PostgreSQL, Prisma ORM, and Node.js fundamentals
Platforms	Comfortable on macOS, Windows, and Linux
